

ADEWALE BAMIKEFA

PROFESSIONAL SUMMARY

Innovative Full-Stack Developer with a strong eye for design and user experience, combined with solid backend expertise using NestJS, PostgreSQL, and TypeORM. Proficient in HTML, CSS, and modern JavaScript frameworks, with a passion for building scalable, maintainable, and user-friendly web applications. Skilled in developing and integrating RESTful APIs, managing relational databases, and ensuring seamless communication between front-end and back-end systems. Adept at solving complex problems, collaborating across teams, and delivering high-performance applications that enhance both functionality and user engagement.

WORK HISTORY

Software Engineer, 06/2024 to Current

Myvamsnet - Nigeria

- Optimized server-side performance by building scalable and maintainable back-end services using NestJS, improving overall application speed and reliability.
- Collaborated closely with front-end teams to integrate APIs seamlessly, ensuring smooth communication between client and server.
- Collaborated with UX and UI designers to implement design changes.
- Integrated RESTful APIs into existing software systems for enhanced functionality.
- Developed robust application architectures with NestJS, leveraging modules, services, controllers, and middleware to maintain a clean and organized codebase.
- Developed and implemented architectures for web applications.
- Implemented server-side logic to support real-time features, background processing, and secure data management.
- Used design expertise to create high-quality animations for diverse websites.
